SUMMARY

Pre-final year CSE student at VIT Vellore │ Enthusiastic about building ML projects with interactive UIs using Flutter and frontend technologies. Driven by curiosity for tech innovation and creating impactful, user-friendly applications.

EDUCATION

Vellore Institute of Technology, Vellore   **2023-2027**

B.Tech - Computer Science and Engineering │ CGPA- 9.28

SKILLS

- Programming: C, C++, Java, Python, JavaScript, R
- Web Development: HTML, CSS, TailwindCSS, ReactJS, Webpack
- Mobile & App Development: Flutter, React Native, Firebase
- Machine Learning & Data Science: Scikit-Learn, Pandas, NumPy, Matplotlib, Seaborn, MLflow, DagsHub
- Frameworks & APIs: Flask, FastAPI, Uvicorn
- Cloud & DevOps: AWS EC2, Docker, Linux
- Data Engineering: ETL Pipelines
- Version Control & Tools: Git, GitHub, PyMongo

WORK EXPERIENCE

Flutter App Developer Intern   **May 2025 - Jun 2025**

Marwadi Shares and Finance Limited(MSFL)

- Built a real-time chat application using Flutter, .NET Web API, and SignalR, improving communication efficiency across teams.

Core Committee Member   **Apr 2024 - Feb 2025**

Centre for Social Entrepreneurship and Development

- Coordinated a technical event during Gravitas with 200+ participants, managing logistics, promotion, and smooth on-site execution.

PROJECTS

- Phishing Detection System – ML-powered URL classifier with 98% accuracy.
- Student Exam Predictor – ML app predicting Math scores with 88% accuracy.
- EcoMind – Flutter app with AI chatbot for smart waste segregation and recycling.
- Wallpaper App – Flutter app with Pexels API and Firebase Auth.
- CV Builder – A web app to generate customizable resumes (ReactJS).
- To Do List – Minimal web app for managing tasks efficiently.
